Stock Market Advances Despite Defeat By France

FRANCS SINK TO NEW LOW DURING DAY

War Debt Situation Has No Effect on Trading Except Foreign Exchange

POUND STERLING UP

Wheat, Corn and Rye Rally While Steel Common Is Boosted With Rails

NEW YORK, Dec. 14.—(UP)—A rise of 1 to 3 points on the stock exchange today more than wiped out yesterday's losses.

The upturn came in the face of French and Belgium default on December 15 was debt payments. For a time in the early trading some scattered selling was noted, but as all markets maintained a relatively steady tone, sellers soon shifted to the buying side.

Volume increased slightly on the rally. The war debt situation had little effect anywhere. Bonds were firm, even French issues maintaining a steady tone moderately under the previous close. Seven United States government issues made new highs for the year.

Much interest was centered on the foreign exchange dealings. Francs sank fractionally to a new low since 1928, while the pound sterling rallied a cent on agreement of the British government to pay its \$35,550,000 war debt installment tomorrow in gold. Belgas were dull and slightly lower. Stock markets abroad were quiet, London steady and Paris lower.

Cotton futures were helped by a favorable consumption report for November. During that month con-

GOVERNOR FAVORING GAS TAX DIVERSION

SACRAMENTO, Cal., Dec. 14.—(UP)—Governor Rolph today was on record as favoring diversion of California's gasoline taxes to pay for old highway bond issues as an aid in balancing the state budget.

"By taking \$8,000,000 from the gasoline tax funds for the payment of interest and retirement of old highway bond issues we could help to balance the state budget," the governor said. "Forty-two other states are balancing their budgets by drawing on this source of revenue."

WILL ROGERS SAYS:

BEVERLY HILLS, Dec. 14. (To the Editor of The Register.) As you read this today, an air express line will be inaugurated from coast to coast, nothing but express. We used to think it was too expensive to send anything by air but a postcard, but it's not that way now. Air mail has fallen off since the costs were raised 3 cents. Here companies have spent and are losing millions giving the people the greatest air network for mails in the world. Write a letter today, the receiver reads it tomorrow no matter where he is. If a letter is not worth 3 cents more to get there three days ahead it don't look like it is important enough to write. I would just hand it to some hitch hiker and let him deliver it in the spring. We used to think mails were terribly important, but if they ain't worth 3 cents the guy may just as well wait till he meets the other fellow and tell it to him.

Yours,
WILL ROGERS.

Pet Monkey Not To Monkey This Way Again

HOLLYWOOD, Cal., Dec. 14.—(UP)—Ming, the pet monkey of James Gleason, film actor, was back in his pen, a much chastened and shocked Simian today after the fire department had, attempted to capture him for three hours following an escape.

The playful pet swung from the cross bars of a pole as firemen reached for him, and clambering out of reach, hung by his tail from a high-tension wire.

There was a crackling sound, and Ming fell to the ground, jolted by 35,000 volts of electricity. A singed tail was his only injury.

MILLS ASSERTS BEER TO BRING HUGE REVENUE

Tells Committee Tax Would Produce 125 Millions During Year 1934

WASHINGTON, Dec. 14.—(UP)—Secretary of the Treasury Mills today estimated that legalized beer taxed at \$5 a barrel would bring between \$125,000,000 and \$150,000,000 to the federal treasury in the fiscal year 1934.

Mills laid his estimates before the house ways and means committee in hearings on the Collier bill to legalize beer and naturally fermented wine.

He warned that beer alone would not balance the federal budget, but said "the goal is definitely in sight."

His estimate of beer revenue was much lower than figures placed before the committee by enthusiastic wets. Some of them have estimated the tax would bring in as much as \$500,000,000.

Mills said the Collier bill provisions for taxation of wines appeared "impossible of administration in that it gives no working definition of what liquors are subject to the tax." Hence he made no estimate of wine revenue.

The treasury secretary's prepared statement to the committee contained no hint to whether President Hoover would veto a beer bill. Committee members hoped to elicit information from him on this point later.

Mills based his revenue figures on an estimate that consumption

CHARGES ARE FILED IN YACHT MURDER

LONG BEACH, Calif., Dec. 14.—(UP)—A warrant charging first degree murder blocked attempts today of William James Guy, youthful Welsh globe-trotter, to obtain his release from jail where he is being held in connection with the shipboard slaying of Capt. Walter Wanderwell.

After several days of indecision, the murder warrant was issued last night by the district attorney after the suspect had obtained a writ of habeas corpus, returnable today. Instead of securing his release, Guy was to be taken to municipal court for arraignment.

Persia Defiant Over Ultimatum

TEHERAN, Persia, Dec. 14.—(UP)—The Persian government today defied the British ultimatum demanding withdrawal of the recent cancellation of the Anglo-Persian oil concession by tomorrow.

A Persian note delivered to the British legation justified cancellation on the ground that the concession was obtained "as the result of pressure." The government claimed the right to call the attention of the League of Nations to alleged British pressure and alleged unfair calculation of royalties. The Persian government, the note charged had not been allowed to check Anglo-Persian accounts.

NOTED FINANCIER AT ISSUE WITH TECHNOLOGISTS OVER VIRTUES OF MECHANICAL AGE

NEW YORK, Dec. 14.—(UP)—The machine age, in its final stages of development, will be a blessing to mankind instead of a curse, in the belief of Frank A. Vanderlip, financier.

Vanderlip sees in the development of machinery to replace manual labor an era of happiness and opportunity such as the world has never known, thus replying to the warnings of "technocracy" that chaos will result if the evolution of mechanization of industry continues without some drastic readjustment in the financial, social and economic cosmos.

"It may be possible that the findings of the technologists demonstrate we must have a new social order," he said in an exclusive interview with the United Press.

"But facts, not interpretations, should be the goal of their investigation for the present. They should pursue a strictly scientific method and go forward to the

DEFENDS JAPAN PETITION FROM BEFORE WORLD VETERANS FOR AFFAIRS MEET CASH IS FILED

Institute Meeting at Riverside Addressed by Imperial Delegate

RIVERSIDE, Calif., Dec. 14.—(UP)—Delegates to the institute of world's affairs turned their attention to European affairs today after hearing a defense of Japan voiced by a member of the Japanese delegation.

Denying allegations of the Lytton report to the league of nations that Japan exceeded its rights in dealing with Manchuria, Senator Inazo Nitobe asserted that "very existence and honor" of his country had been at stake. He indicated a conviction that Japan's Manchurian policy only forestalled similar action by some other foreign power.

"Japan has little coal, oil and iron and her emigrants are denied entrance to other countries," Dr. Nitobe declared. "If she finds sparsely populated and undeveloped land near her borders and wishes to develop it, the whole world rises to impede her movements."

"In the presence of problems that will decide her future, Japan has taken her fate in her hand. She has to deal with a whole region, which if left to itself or to China will fall an easy prey to another power which threatens her before and will threaten her again—and which will turn the far east into pandemonium."

"Viewed from this angle, the steps Japan has taken in Manchuria are measures of defense. By insisting on her rights in the league of nations, Japan, it is feared, may jeopardize the very existence of the league."

The speaker scoffed at such fears, declaring the league was not constructed of "such fragile framework."

DEMOCRATS WIN IN BATTLE OVER JOBS

WASHINGTON, Dec. 14.—(UP)—Democrats aided by progressive Republicans won a battle over jobs in the senate today when they voted down a motion by assistant Republican leader McNary for an executive session for confirmation of President Hoover's latest appointments.

By a vote of 44 to 37 the Democrats won their opening fight to prevent confirmation of all presidential appointees whose terms would extend beyond March 4. The Democrats except from this rule promotions in the military, foreign and similar professional service of the government.

Having won their point on the confirmation issue, the Democrats permitted immediate confirmation of the nomination of Roy C. Chapin, Detroit, to be secretary of commerce. His term expires March 4.

Hutton himself long ago insisted he was penniless in side-stepping the judgment which had been awarded Myrtle Hazel St. Pierre, Pasadena nurse.

Mrs. Hutton insisted she couldn't pay the award.

WARNER FILM FIRST MANAGEMENT WINS

WILMINGTON, Del., Dec. 14.—(UP)—The management of Warner Brothers Pictures, Inc., claimed victory in the proxy fight for company control today after stockholders had balloted in person and by proxy on candidates for the board of directors.

More than 2,000,000 proxies had to be counted before a quorum was established, so balloting did not end until 1:30 a. m. The management offered the only slate of directors, and apparently was the victor over the opposition forces led by Max Goldberg, Salem, Mass., lawyer.

The management's candidates for the directorate were: Charles Guggenheimer, Sam E. Morris and Stanley P. Friedman, all of New York; John P. Laffey, Wilmington; Morris Wolf, Philadelphia; and William Coyne, Wilmington.

Idaho Solon Says Would Supply Jobs

Situation in Orient Also Would Be Improved by Diplomatic Move

WASHINGTON, Dec. 14.—(UP)—Chairman Borah of the senate foreign relations committee in an interview with the United Press today urged recognition of Soviet Russia to ameliorate unemployment and other domestic and international ills.

Borah spoke cautiously but significantly of the effect United States recognition would have in the troubled far east.

"The establishment of diplomatic relations," he said, "would have a direct and most favorable bearing upon the situation in the Orient."

By that phrase, Borah was referring in part to the problems created by Japan's policy in Manchuria and establishment there of a state under Japanese domination. Some well-informed persons have expressed the belief that had Moscow and Washington been on speaking terms in September, 1931, the Japanese descent on Manchuria might not have taken place. But Borah contented himself today with the single reference to the Orient.

The senator has been a consistent champion of Russian recognition but never was able to persuade Presidents Harding, Coolidge or Hoover. He reiterated today that recognition is urgently desirable.

"There is scarcely a matter of international importance that would not be favorably affected," he said, "by the establishment of diplomatic relations between this country and the government of Russia."

We are all interested in world peace, in disarmament, in the restoration of economic conditions and the betterment of trade, in improving unemployment. The Russian question involves all these matters."

Borah constantly argues that the United States hurts itself in refusing diplomatic relationship to the Soviets. He developed this idea today.

"The establishment of diplomatic relations between the United States and the Soviet government involves many important propositions," he said.

"First, it has a direct and substantial bearing upon the peace problem and disarmament, a thing in which we as a government and a people are vitally interested."

"Secondly, it has a direct bearing upon the restoration of trade and the improvement of economic conditions."

"Russia is the greatest undeveloped market in the world for our goods. Other nations are taking every opportunity to improve their trade relations with Russia. We read occasionally that this or that nation is having a controversy with Russia. But investigation shows that the controversy always ends up by improved trade relations."

"The more we sell abroad, the more people we put to work, I had a few days ago from a large business firm in New York City a letter which said that they had lost a large amount of trade with Russia during the last two years and that it had gone to Germany, England and France."

"As a result of this, they had laid off more than 100 men."

Borah said he would seek committee action on his resolution urging recognition if there were indications of favorable senate sentiment.

SKILLFUL JOB OF SURGERY SAVES YOUTH

LOS ANGELES, Dec. 14.—(UP)—A skillful job of surgery today had saved the life of 11-year-old Joseph Rosetti, who swallowed a half-inch brass tack which lodged in the youngster's right lung.

The operation was performed by Dr. Philip W. Shumaker at Georgia Street hospital. The surgeon located the tack at the bottom of the bronchial tube, where it had punctured the lung slightly, and removed it with a pair of forceps. The boy will recover.

YOUTH THROWS HOUSE INTO PANIC WHEN HE APPEARS IN GALLERY WITH GUN

WASHINGTON, Dec. 14.—(UP)—Authorities expected to file formal charges against Marlin Kemmerer, pale faced young clerk and expert marksman who put dignified congressmen in pellmell flight from the house chambers when he flourished a loaded revolver in the gallery and demanded permission to make a speech for "the common people."

Police who questioned him said he seemed to be "normal in every respect." They could not account for Kemmerer's action than could his astounded friends back home in Allentown, Pa., where his employer described him as a "level-headed and quiet young man."

Two sticks of dynamite were found in the room he had occupied here since last Thursday.

Kemmerer said he had planned to take the dynamite with him to the gallery and blow himself up if he was prevented from speaking.

"But just before I left the house, I decided some innocent person might be hurt by the explosion, so I didn't take the stuff with me," he said.

The youth likewise insisted he had not planned to shoot anyone at the capitol.

"There's no sense in getting so excited," he told police. "I didn't have any intention of hurting anyone. But you have

CARELESS DRIVING WARNING IS ISSUED

SACRAMENTO, Cal., Dec. 14.—(UP)—City streets and adjacent highways are more dangerous to motorists than mountain roads during the present unparalleled winter conditions in California, E. Raymond Cato, chief of the State Highway patrol, declared today in issuing a warning against careless driving.

"No one ever expected ice on the streets in Alameda, Marin, Solano, San Bernardino, Riverside and San Diego counties, and motorists still aren't convinced," Cato said.

"We're working night crews wherever necessary to slow down traffic and warn motorists of slippery pavements."

NEVADA'S BANKING HOLIDAY NEAR END

RENO, Dec. 14.—(UP)—Nevada's banking holiday, proclaimed a month ago as an aid to tottering financial institutions, will come to an end Saturday, but at least 12 banks in the state will remain closed.

State Bank Examiner E. J. Seaborn, has taken over 10 of the state banks in the George Wingfield chain, while the other two Wingfield banks, national institutions, are in charge of the national controller of currency.

The banks are not under receivership, but will remain under control of the public officials until some plan of reorganization and refinancing is devised.

TWO MOVES PLANNED TO SAVE RUTH JUDD

PHOENIX, Ariz., Dec. 14.—(UP)—Two surprise moves were promised by counsel for Winnie Ruth Judd today as they mapped out plans to save her from the gallows.

O. V. Willson, chief of defense counsel, said the "surprise moves" were not far enough advanced to disclose but revealed two plans by which he hoped to obtain a new trial for the convicted murderer of Agnes Ann Lerol.

The first will be to ask the Arizona supreme court for a rehearing of the appeal, rejected Monday, and the second will be to petition the United States supreme court for a review on a writ of error.

Linters consumption was estimated at 52,325 bales. This compared with 53,967 bales in November, 1931.

The bureau also estimated cotton held in consuming establishments Nov. 30 at 1,456,913 bales, and cotton held in public storage and at compresses, at 10,577,362 bales.

FRANCE NOT TO MAKE PAYMENT ON U. S. DEBT

(Continued from Page 1)

debt payments until the United States makes a decision to discuss revision. The vote was 280 to 57.

Herriot went down fighting after a brilliant plea for France to maintain the sanctity of her contract. Victorious opposition deputies, unmindful of anything except their overthrow of the government, cheered wildly and waved their arms as Herriot and his cabinet walked from the chamber.

When news of Herriot's overthrow reached war veterans outside, they shouted and cheered, embraced one another and organized a spontaneous cheering parade. Police herded the veterans into lines but allowed them to parade and shout as much as they pleased.

The opposition, after the cheering ended, expressed the opinion that the next government could want the United States that France will never pay another cent unless Washington immediately cuts debt payments to the bone and helps France in collecting reparations from Germany.

Paradoxically, Herriot's six months old cabinet was defeated as the result of two measures which Herriot voted against in the chamber, the Mellon-Berenger agreement and the Hoover moratorium.

Likely Successor

Two of Herriot's fellow leaders in the radical Socialist party, Edouard Daladier and Camille Chautemps, were mentioned as likely candidates for the premiership when President Lebrun starts his reformation of the government. If Lebrun seeks a leader in the senate, Henry Berenger, co-funder of the Mellon-Berenger agreement, and Joseph Caillaux, former minister of finance, were considered likely choices. Pierre Laval was also in the background.

President Lebrun was anxious to solve the crisis as soon as possible. He received the presidents of the chamber and senate immediately, and will continue the routine of conferring with party leaders. An offer of the premiership was not expected before Thursday however.

"For the first time in history France has failed to honor her signature," the retiring premier said. "I gave proof of the affection for my country by seeking to prevent default and staking the life of my government on the result."

At any cost, France should seek to maintain an unbroken front with Britain. Parliament was warned that a vote against the government payment project was likely to bring the gravest consequences.

Royalties attempted a hoax on Herriot during the debate. A telephone call came to the chamber secretary wishing to speak with the premier. Herriot went to the telephone, but saw through the hoax when the "secretary" recited a message from MacDonald urging France to drop her plans for payment.

The chamber galleries were filled. Members of the government were draped wearily over the government benches. A few deputies sat in their seats, while most of the members wandered in and out of the corridors.

Warne Socialists

Herriot leaned far over the rostrum to shake a warning finger at the Socialists, pointing out their responsibility if the government was overthrown. The air was thick with smoke. Details of the Republican guard were on duty in the chamber, dressed in their brilliant red uniforms. Most of them dozed over their drawn bayonets.

The paunchy, scholarly premier was never worried about his political fate.

"Politics is like a horse race," he said between puffs at his pipe. "A good jockey must know how to fall with the least possible damage."

Herriot told the chamber that the French public was insufficiently informed on the terms of the loans received from America.

"They don't know that they borrowed from 60,000,000 Americans, and not from the government," Herriot said.

Turning to the hostile Socialist and Communist left wing, Herriot declared:

"You will default, thereby robbing France of her chance to receive good treatment. You want arbitration, but our political case is better than our judicial case. You will break the Franco-British pact, bringing isolation to France, with the gravest difficulties."

"England and Italy will pay. Belgium will pay."

the world, on the one hand, and on the other, over production and stagnation in distribution of produce and employment.

"We should be able to see what is fundamentally wrong and correct it. I am sure that before long we will."

He conceded that technocrats are making a "substantial contribution" to the study of economic problems and agreed with their criticism of a national debt which invokes her incapacity to pay, but the world knows that France cannot claim she is incapable of paying \$20,000,000.

"When the United States agrees to debt sacrifices in favor of Britain, what will oblige the United States to give the same favorable treatment to France, if France defaults? Peace of the world, freedom, law and order oblige France to keep her honor with Britain and the United States. If France disrespects her signature, what will Germany do?"

GREAT BRITAIN TO PAY DEBT IN GOLD

LONDON, Dec. 14.—(UP)—Payments of great Britain's \$95,550,000 debt installment to the United States will be made in gold in New York tomorrow, Neville Chamberlain, chancellor of the exchequer, announced in the house of commons today.

Opening an historic debate on the entire debt problem, Chamberlain said the government had decided to pay in full because "default would have rounded all around the world and might have been taken as justification for other defaults."

"Default at this time and in these circumstances would have administered a moral shock to our people," he said. "An appeal in formal pauperism to be allowed off part of the debt would not have been dignified."

Chamberlain praised the Hoover moratorium for having saved the situation in Europe, but added: "It is no use, once it has been put into operation, to think it is possible to go back to the system which existed before."

Lausanne, he said, had ended the existing system of reparations. "If the United States had been willing to send a representative to the Lausanne conference, a final settlement might have been made on the spot," he commented.

Explaining the system for tomorrow's payment, he said: "The federal reserve bank in New York City will provide in New York the amount of gold required to meet the payment, and the Bank of England will earmark in London simultaneously to the account of the federal reserve an equivalent amount of gold."

Chamberlain defended Stanley Baldwin, who negotiated the settlement with the United States, from "pitiful charges" that he had foisted the war debt burden on Britain's shoulders, whereas he actually "obtained a remission of the debt which on the basis of five per cent, amounted to 28 per cent of the original figure."

Chamberlain gave the house the clear impression that if there is no readjustment by next June 15, when new payments are due, Britain cannot pay further.

He revealed that Britain had rejected an American proposal that Britain pay in bonds to be marketed in the United States. "That was not postponement," he said. "It was another and not very agreeable way to make payment."

His reference to determination to avoid default was particularly cheered.

Banker Talks On Music At Dinner Of Baptist Men

Featured by a chicken dinner, musical numbers, and an interesting and inspirational talk on music, the Men's club of the First Baptist church enjoyed an interesting program in the church recreation hall last evening.

The chicken dinner was served by Mrs. A. M. Robinson and her assistants. Quartette numbers were by the Santa Ana Junior college male quartette, Marc Hare, Martin Bowman, William Fox and Rutherford Williams, with Alan Revell accompanying. Solos were by Mrs. J. P. Williams, with Mrs. Leslie Steffensen at the piano.

Harry V. Adams, of the public relations department of the Security-First National bank of Los Angeles, gave the address. Adams was introduced by Frank J. Was, Santa Ana manager of the bank. He spoke on "Music, the Great Business Tonic." John James, president, presided at the business session. J. F. Williams was program chairman and Jason Hodge led the devotionals.

Breakfasters To Elect Officers

Following the business program, during which officers will be elected, a program of entertainment will be presented to members and guests of the Breakfast club tomorrow evening. Maurice Phillips, well known Santa Ana vocalist, will present a group of solos, accompanied at the piano by Harry Garstang. David Kaul, native Hawaiian, who is a featured artist over KRBO, will play guitar selections and sing songs, accompanied at the piano by his wife, Claude McDowell, will be in charge of the program.

A vigorous appeal to resist any change in the territorial government of Hawaii was delivered in a second night address by David L. Crawford, president of the University of Hawaii, who denounced any plan to hand over control of the island to the navy as result of the sensational Masie attack case. Such a plan, he said, would violate the spirit of the annexation treaty of 1875.

"Unless Hawaii falls down on her part of the bargain, Dr. Crawford said. "The United States has no moral right to make any major change in terms."

The institute's discussion of European affairs today was to be led by Dr. Christine Galtz of Scripps college and Baron F. Von Reichenberg, former member of the board of presidents of the North Atlantic shipping conference. Von Reichenberg's subject was "Balance of Power or Pan-Europa?"

CONNECTED OF BURGLARY AT ATWOOD SCHOOL

Deliberating for approximately four hours, a jury in department one, superior court, last night returned a verdict convicting Angel Rodriguez of second degree burglary. Rodriguez was on trial for stealing a photograph from the Atwood school, October 9, last. Judge H. G. Ames, sat Friday at 1:30 p. m. as the time for pronouncing judgment.

At the close of the prosecution's case, as presented by Deputy District Attorney Leo B. Ellis, A. P. Nelson, attorney for Rodriguez, moved for an instructed verdict of not guilty which was denied by Judge Ames. In his motion for an instructed verdict, Nelson declared that the evidence against Rodriguez was insufficient for conviction. He declared that the only evidence against Rodriguez was the fact that his truck was seen parked near the school on the night of the robbery and the fact that Rodriguez was with two other youths when the photograph was sold in Los Angeles.

Witnesses subpoenaed for Rodriguez did not appear at the trial and he took the stand in his own defense denying that he had stolen the machine. He declared he was in Atwood for the purpose of visiting relatives and to keep an appointment with a girl whom he had met at a dance in Santa Ana.

retary grew more bitter, both speaking at once.

Mills challenged several of Rainey's statements as to the procedure under which last year's tax bill was drafted.

"The tax bill of the House does not represent the tax bill recommended by the treasury. Let's have that clear," Mills shouted.

In support of his stand on the sales tax, Mills said:

"I told you that if this committee would support a sales tax I would support it, and I did. I went before the public in support of a general manufacturers sales tax at once."

The argument then turned to the hitherto unrevealed role which Bernard Baruch, New York financier, played in drafting last year's tax bill.

Baruch, a Democrat, has been mentioned as a possible member of the Roosevelt cabinet.

Mills then read from the record, a paragraph which he said showed his tax figures last year were preliminary.

The dispute then turned on whether or not outside experts had proved the treasury estimates had been wrong.

"They never came to me," Mills declared, "and they never came to the economic division of the treasury." Baruch, it was indicated, was apparently the "expert" to whom Rainey referred.

Later, Mills said "Mr. Baruch did come to me and say 'Your figures on tax returns are way too high and I said 'of course they are'."

In another moment, Capitol police assisted by Representative La Guardia, Republican, New York, had collared the youth and taken him away.

"The youth said the country was 'in a bad situation,' and he believed he had some proposals that would help."

"Congress has mistreated the whole country," Kemmerer said. "That was my reason for coming to Washington. I wanted to make a speech and outline my plan to industry."

"I do not belong to any political organization. I am not a Communist. I voted for Norman Thomas, but I have no connection with the Socialist party."

Police found in the youth's pockets a copy of the speech which he said he wanted to deliver. It began:

"Okay, America. For the next 20 minutes you will listen to a speech which really has the interest of the common people at heart. The man who tries to stop it will die. Is this understood?"

Picks Wrong Place To Try Overcoat

Trying on an overcoat in a dark alley on a rainy night resulted last night in the arrest of Joseph Sakrsk, 21, of New Jersey, by Santa Ana police, who lodged a vagrancy charge against the man while they made an investigation as to the ownership of the coat, and lodged him in the county jail.

Officers last night saw the man trying on a coat which had been lying near a bicycle in the alley between Bush and Main near Third street. The man was found to have two envelopes in his pocket which came from the board of education office. He said he had found them in the street, but because they were dry and it was raining police became suspicious and held the man for investigation.

Snowballs Fly In Battle At High School

Snowballs, molded from material brought in from above Irvine park, flew hither and yon, filling the air at Santa Ana High school and Junior college yesterday, as students indulged in their first "fight" of the semester.

It was just another snow fight to students from the fight to students from the Southland and it was a treat seldom experienced during school hours.

Although the snow hauled from the park formed hard balls when molded on the campus, only one injury occurred. A poorly directed missile accidentally struck a member of the college faculty, it was reported.

retary grew more bitter, both speaking at once.

Mills challenged several of Rainey's statements as to the procedure under which last year's tax bill was drafted.

"The tax bill of the House does not represent the tax bill recommended by the treasury. Let's have that clear," Mills shouted.

In support of his stand on the sales tax, Mills said:

"I told you that if this committee would support a sales tax I would support it, and I did. I went before the public in support of a general manufacturers sales tax at once."

The argument then turned to the hitherto unrevealed role which Bernard Baruch, New York financier, played in drafting last year's tax bill.

Baruch, a Democrat, has been mentioned as a possible member of the Roosevelt cabinet.

Mills then read from the record, a paragraph which he said showed his tax figures last year were preliminary.

The dispute then turned on whether or not outside experts had proved the treasury estimates had been wrong.

"They never came to me," Mills declared, "and they never came to the economic division of the treasury." Baruch, it was indicated, was apparently the "expert" to whom Rainey referred.

Later, Mills said "Mr. Baruch did come to me and say 'Your figures on tax returns are way too high and I said 'of course they are'."

In another moment, Capitol police assisted by Representative La Guardia, Republican, New York, had collared the youth and taken him away.

"The youth said the country was 'in a bad situation,' and he believed he had some proposals that would help."

"Congress has mistreated the whole country," Kemmerer said. "That was my reason for coming to Washington. I wanted to make a speech and outline my plan to industry."

"I do not belong to any political organization. I am not a Communist. I voted for Norman Thomas, but I have no connection with the Socialist party."

Police found in the youth's pockets a copy of the speech which he said he wanted to deliver. It began:

"Okay, America. For the next 20 minutes you will listen to a speech which really has the interest of the common people at heart. The man who tries to stop it will die. Is this understood?"

Picks Wrong Place To Try Overcoat

Trying on an overcoat in a dark alley on a rainy night resulted last night in the arrest of Joseph Sakrsk, 21, of New Jersey, by Santa Ana police, who lodged a vagrancy charge against the man while they made an investigation as to the ownership of the coat, and lodged him in the county jail.

Officers last night saw the man trying on a coat which had been lying near a bicycle in the alley between Bush and Main near Third street. The man was found to have two envelopes in his pocket which came from the board of education office. He said he had found them in the street, but because they were dry and it was raining police became suspicious and held the man for investigation.

of beer in 1934 would be 25,000,000 or 30,000,000 barrels, "depending on the number of states in which the sale of the new beverage will be made legal during the coming year."

He said immediate sale of beer was "reasonably certain" in Arizona, California, Maryland, Massachusetts, Michigan, Missouri, Montana, Nevada, New Jersey, New York, North Dakota, Oregon, Pennsylvania, Rhode Island, Washington and Wisconsin.

In addition to those states, he said, "early sale of beer may reasonably be expected" in Connecticut, Colorado, Indiana, New Hampshire, Delaware, Illinois, Louisiana, Minnesota and Vermont.

Mills after submitting the estimates turned to the budget situation in general.

He said only about \$307,000,000 of new revenue was needed to balance the 1934 budget

M. W. D. BONDS SOLD: AWARD TUNNEL JOB

Directors of the Metropolitan Water District today had accepted the Reconstruction Finance corporation bid of \$2,616,000 of the district bonds at par, bearing five per cent interest, and had awarded to the Metropolitan Engineering corporation for construction of the 17-mile San Jacinto tunnel on its low bid of \$7,311,515.

Frank E. Wymouth, chief engineer and general manager, although recommending the award of the contract for the tunnel, the major construction item in the project to bring water to Santa Ana and other cities in the Metropolitan Water District, declared he would urge construction of other major phases of the aqueduct for force account.

The San Jacinto tunnel constitutes but five per cent of the work to be done, and only 600 men can be employed on the construction work.

MONTGOMERY RETIRES FROM LEAGUE POST

LOS ANGELES, Dec. 14.—Dr. S. T. Montgomery, for nearly 20 years an officer and leader for the California Anti-Saloon League, will be retired as state superintendent of the League in accordance with an economy move decided upon by the state league board. The move eliminates a Northern California office and effects a saving of some \$5000 a year.

At the same time it was made known that the Rev. A. F. Newcomb, financial secretary in the Southern California office, will have charge of this branch under a status which has not been announced.

Dr. Montgomery, upon retiring, declared that the league's work has very much ahead of it. "It must go on and it will go on," he said. "It has a great work to perform."

The Rev. C. W. Gawthrop of San Francisco was superintendent of the league in Northern California. He became superintendent of the Northern Baptists' association and his league position was not filled. The state board which controls the northern and southern league, decided also to eliminate the southern superintendency.

IS HONORED

Father St. John O'Sullivan, below, who has been in charge of the San Juan Capistrano mission for 25 years has been signally honored by the Catholic church for his work in restoring California missions, as well as his activity in spiritual work. He has been appointed as a Domestic Prelate.

HONOR PRIEST FOR WORK AT OLD MISSION

One of the highest honors of the Catholic church today has been awarded to Father St. John O'Sullivan, for many years in charge of the old Mission San Juan Capistrano and widely known in California as a historian.

Father O'Sullivan has been appointed a Domestic Prelate, according to word just received from Rome by Bishop J. J. Cantwell, of Los Angeles. The appointment promotes him to the honorary rank of Patriarchs, Bishops and Abbots.

Further honors are conferred on Father O'Sullivan through the appointment, which include entering him as a member of the Pope's household, entitling him to be addressed as Right Reverend and confers other unusual dignities.

The honors were bestowed on Father O'Sullivan in recognition of his labors in the restoration of California missions and as a reward for spiritual activities as well.

Father O'Sullivan is well known in Orange county. He went to San Juan Capistrano 25 years ago from his native state of Kentucky. He had been in ill health but regained his health by working with trowel and mortar repairing the crumbling arches and pillars of the famous old mission. Afterwards he was able to obtain assistance and to employ help and succeeded in restoring most of the structure of the mission.

COAST GROUP STAGES PARTY AT SEAL BEACH

Members of the Orange County Coast association held their annual Christmas party at the Seal Beach city hall last night, with Hallam Cooley, of Three Arch Bay, acting as Santa Claus.

Secretary Harry Welch received a "jimmy" to help him pry dues from the members: Elmer Hughes, of Seal Beach, got a mechanical horse; President Armitage was presented with a fine crayon drawing of himself; Dr. J. W. Slabaugh was given a chisel to help him with county officials.

Mayor Thomas F. Murphine, of San Clemente, first vice president, presided in place of President Jesse A. Armitage of Sunset Beach, who although present, had not recovered sufficiently from a recent illness to assume the chair. He was introduced and given a fine reception.

Murphine announced that the following nominating committee has been appointed by President Armitage: W. D. Miller, Seal Beach; George W. Bush, Sunset Beach; Arthur W. Frost, Huntington Beach; J. B. Greeley, Balboa; N. E. West, Laguna Beach, and Dan Mulholland, San Clemente. The committee will report at the annual meeting to be held in Laguna Beach January 21. On motion of Dr. G. Huston, a request by Sumner Crosby of Laguna Beach, that the meeting day be January 21 instead of the regular day, January 17, carried. It is planned by a Laguna Beach committee to hold a celebration of the opening of the new highway widening and paving on January 21 and a contest now is in progress for the election of a queen to rule over the festival. The celebration will have its climax at the Coast association meeting.

Dr. C. G. Huston, chairman of the association's Christmas lights committee, reported that everything is in readiness for turning the lights on Thursday night at 7 o'clock. Coast cities from Seal Beach to San Clemente are cooperating.

Entertainment was furnished by Mrs. Vera Newcomb, Laguna Beach opera singer, accompanied by Mrs. Nellie Schwankovsky and the Song Birds of Seal Beach, who sang carols and solos. They were Mrs. P. B. Clarke, Mrs. M. J. Ziegler, Mrs. W. A. Kalk, Mrs. F. E. Davis, James Buntin and Bernard Tye. Mrs. Davis played the accompaniment.

Lawrence Macomber and Arthur Dupuis, of Emerald Bay and C. E. C. Burnett, secretary of the South Coast Improvement association, were introduced.

A letter was read by Secretary Welch from K. Imamura, Laguna Beach's Gin Chow, advising not to put up Christmas decorations before December 13, because it would rain heavily December 11 and 12. The letter was written December 8. He also advised the change in date for the highway celebration from January 17 to 21 for weather reasons.

PROGRAM HELD BY MEMBERS OF ORANGE UNION

ORANGE, Dec. 14.—Orange W. C. T. U. members held their annual "Crucade" program when they met yesterday afternoon in the Friendly Hand classroom of the First Presbyterian church, with Mrs. Minnie Neville, president, in charge.

The program was opened with group singing of "The Crucade Hymn" and "Some Glad Day." Mrs. Clara L. Sumner, evangelist, directed, conducted devotionals in line with a Christmas theme, with Mrs. Anselme Courtney leading in prayer.

Yesterday's program was the last one provided for in the booklet, "Typical Programs," prepared by the National Woman's Christian Temperance union. Members decided to purchase new booklets with suggested programs for the year of 1933.

Miss Mary Heywood, secretary, reported on the Hall-Summers debate given recently in Santa Ana. Union members hope to be sponsors for a program to be held early in 1933, with the Hall-Summers debate as the main feature of the program. Miss Heywood is to place the prohibition book, "Which Way," in the Orange public library, it was decided.

In carrying out the Crucade theme, members discussed the work done by Frances E. Willard, who organized the first union in Southern California. Members decided to place their vote for her as one of the world's most famous women in a current contest being conducted by a monthly publication.

The next meeting of the Orange union is to be held the afternoon of December 27 at 2:30 o'clock in the Presbyterian church.

REPLACE LIGHTS ON PLAZA TREES

ORANGE, Dec. 14.—A number of the Christmas lights, blown from the trees around the plaza, were replaced yesterday by the Hutchins Electric company. The decorations were undamaged by the storm save in this respect. The decorations this year follow closely those of last year.

The star pine at the east entrance of the plaza has grown since last year, when it was considered to be the tallest decorated tree in the county. At the west entrance the huge white star built last year has been placed near the top of one of the tallest palms and the trees placed at intervals around the circular walk twinkle with colored lights and similar lights are festooned from tree to tree.

The trees are to be kept lighted until January 1.

3 Stages of a COLD!

And Relief Is Far Easier in the First Than in the Second or Third Stages!

A cold ordinarily progresses through three stages: the Dry Stage, the first 24 hours; the Watery Secretion Stage, from 1 to 3 days; and the Mucous Secretion Stage. The first stage is when treatment is most effective.

To stop a cold in the first stage, take Grove's Laxative Bromo Quinine. It does the four things necessary: Opens the bowels, kills the germs and fever in the system, relieves the headache and tones the entire system. Anything less than that is trifling with a cold. All drug stores sell Grove's Laxative Bromo Quinine. Be sure you get that and nothing else. Cellophane-wrapped box.

VILLA PARK RANCHER SUE FOR DIVORCE

Charging extreme cruelty and alleging among other things that her husband refused her money to have dental work done saying that he would pull her teeth with a pair of pliers, Mrs. Florence McCollum has filed suit for divorce from Thomas C. McCollum, Villa Park rancher. Mrs. McCollum also is asking for \$500 attorney's fees, \$75 monthly temporary alimony pending the trial of her divorce suit and \$75 per month permanent alimony. In her complaint Mrs. McCollum is asking the court to order her husband to account for community funds expended on his separate property and to award her a share of this property. The McCollums were married June 25, 1932, in Ventura, according to the complaint, and separated the first time November 24, 1932. A few days after the separation the couple was reconciled and lived together for nine days when they

again separated on December 5, last.

According to the complaint, prior to their marriage, McCollum's two sisters Mrs. Caille Horton and Mrs. Olive Hadley, who gained considerable attention earlier in the year when Mrs. Horton had her husband arrested on a felony complaint charging him with non-support, were living with him. It was agreed, Mrs. McCollum alleges, that after the marriage the sisters would leave the McCollum home. This agreement was not kept for sometime, she alleged, and after the two sisters did move away they would return frequently and spend days at the home and take over management of the household.

Advisor Prepares For 2 Institutes

Farm Advisor Harold E. Wahlberg is now back at his desk and duties following a brief absence due to a minor operation. Little the farm advisor is making preparations for the annual citrus and avocado growers' institutes, which will be held in Orange county in the early part of 1933. Arrangements are being made with crop and marketing authorities to participate in the two popular farm institutes, which are held under the auspices of the Agricultural Extension service and the Orange County Farm bureau.

Politically Speaking

BY HOMER L. ROBERTS
(United Press Staff Correspondent)

SACRAMENTO, Calif., Dec. 14.—(UP)—Organization of the 1933 state legislature, even to the salaries of officers of the senate and assembly, is expected to present no difficulties.

It appears generally agreed that Assemblyman Walter J. Little of Santa Monica is assured of election as speaker of the assembly. Little has more than a majority of that body already pledged to vote for him.

Arthur A. Ohlman of San Francisco is slated for reappointment as chief clerk of the assembly, and will have Fred J. Desch of Los Angeles as his chief assistant. Louis F. Erb of San Francisco is to succeed himself as minute clerk.

Beck on List
On the senate side, there will be no opposition to the reappointment of Joseph A. Beck, of Balboa, as secretary; Paul Mason of Sacramento as his chief assistant; and Joseph E. Nolan of Los Angeles as sergeant at arms. Harold J. Powers of Modoc county, minute clerk for several sessions, will return as a state senator from his

district, which means someone must be chosen to fill that post.

Already the legislators are talking about the bills they will introduce. Senator Dan E. Williams of Tuolumne county will offer a measure to abolish the state department of finance, and its \$10,000-a-year directorship, now held by Roland A. Vandegrift.

Assemblyman-elect Henry P. Meehan of Oakland will offer a bill transferring all the duties of the present state board of equalization to an elective state railroad commission, as an economy move.

More Appointments
Speaker Edgar C. Levey of San Francisco proposes to abolish the law permitting candidates to run for office on more than one party ticket, which he says "upsets the whole theory of the direct primary."

Governor Rolph has seven valuable Christmas gifts in the form of appointments to drop into as many stockings this month. They include two railroad commissionerships at \$9000 a year for 6-year terms, a supreme court judgeship two Los Angeles municipal judges and two park commissioners.

Wallace Ware of Santa Rosa will be named to the railroad commission to succeed Fred G. Steverton, whose term expires December 31, and Commissioner Leon O. Whitsett is expected to be reappointed for another term. The supreme judgeship is expected to

go to Appellate Justice Ira L. Thompson of Los Angeles.

Political Gossip

Dan O'Brien will not return soon from his trip to Europe. . . . But Governor Rolph is still keeping him as director of penology.

Ed H. Whyte, state parole officer, favors lethal gas instead of the gallows.

Plans are under way to ask Uncle Sam for a loan of \$750,000 for the state unemployment camps. . . . It would feed more than 20,000 hungry men this winter.

Clyde Seavey proposes to make the state railroad commission self-supporting. . . . He'd levy an assessment upon all public utilities.

State employees want the state to discontinue the voluntary wage contribution agreement. . . . They are disgusted because so many high-salaried state officials won't contribute.

Officials Attend Economic Council

George E. Raymer, secretary of the Santa Ana Chamber of Commerce, and W. C. Jerome, Santa Ana supervisor-elect, attended a meeting of the Southern California Economic Council which was held in Los Angeles Monday. Jerome is a member of the council, while Raymer is secretary of the Orange county division.

DAMAGE SUIT ASKS \$5000 FOR INJURIES

Painfully injured when the automobile in which she was a passenger was involved in an automobile accident December 12, 1931, Miss Denise Paulson, has filed suit in superior court demanding judgment for \$5000 from Mrs. Minnie Johnson and Earl Johnson, owners of the other automobile.

According to her complaint, the accident happened at the intersection of Orange and Grand avenues in Buena Park. Miss Paulson was riding in an automobile driven by Coleman Schwartz. She alleged that the Johnsons were reckless and careless in the operation of their automobile.

Miss Paulson charged that she received contusions and lacerations of the right ankle and leg and bruises about the head.

RETURN TO ATWOOD

ATWOOD, Dec. 14.—Mr. and Mrs. E. P. Francis and Mr. and Mrs. C. A. Lineberger have returned home after spending a week in the mountains along the Ridge Route in the Lineberger cabin. They hunted pigeons and got their limit.

ASKS \$25,727 FOR LOSS OF FINGERS

Two fingers amputated because of injuries received in an automobile accident on December 17, 1931, were valued at \$25,727.20 by T. W. Parcel in a suit filed in superior court against Camillo Flores.

Parcel alleges that he received injuries to his left hand which made amputation of the two fingers necessary when his automobile was involved in a collision with one driven by Flores, at the intersection of Seventeenth street and Garden Grove road. In addition to the loss of the two fingers Parcel's hand was badly mangled, the complaint asserts.

Report Shows 125 Indians Living In Orange County

Orange county, according to the last census, has an Indian population of 125 of which 14 are residents of Santa Ana. This entire state is home for 20,000 Indians. This Indian population, according

to a census report, does not include the Mexican Indian of whom there are 358,000 in the state.

The various Indian tribes of California are scattered over every county in the state. Humboldt county leads in point of numbers with 2174 listed. San Diego county is next, with 1723.

One Sure Way to End Coughs and Colds

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, pneumonia and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (Adv.)

WOOLKS and SLIDES

by WILLIAM BRAUCHER

Like the elephant, the Old Guard remembers. The Old Guard referred to is John Bain Sutherland of Pitt, coach of the Panthers, dentist, scholar and native Scotsman.

The Old Guard remembers two good ball clubs he took to the Pasadena Rose Bowl only to find them in the hands of the 1932 team, captained by Gibby Welch, the greatest player he ever coached at Pitt. He was stopped cold by Stanford, 7 to 6.

There is also the memory of how the aroused Trojans smothered his fine players, Donchese Montgomery, Quante, Daugherty, Dimeola, Parkinson and Lanza. In the Rose Bowl game of 1930, by the overwhelming score of 47 to 14.

The Old Guard is not the kind of person who laughs off things like that. Scottish blood demands an even break (and one up wouldn't hurt). So when he takes another ball club to the coast to battle Southern California, Jan. 2 he is not going just for the ride.

HE DOESN'T ADMIT IT

Dr. Sutherland isn't saying so directly, but if you will read between the lines of his printed opinions of his players this year, it is not hard to reason that he thinks this club is the best he ever had from the viewpoint of

DR. JOCK SUTHERLAND

their fighting ability and perseverance in the face of odds.

The Notre Dame game told him that. You could have taken the short end of 6 to 1 odds if you dared to wager on Pitt's chances. Pitt was expected to hold the score down to three or four touchdowns. But the Panther stopped the Rams' attack all over Allegheny county and then came on to crush the South Benders.

The same great fighting qualities were shown in the Army game, the Penn game and the rip-roaring clash with Stanford.

IS THIS THE ANSWER?

"Whenever a bit of superlativity was needed," says Sutherland, "that bit was there."

That seems to me to be the test of a great team. It is a team that overcame not only the tremendous legend of Notre Dame's invincibility, but conquered its own confidence in the game with Penn.

Critics and coaches all over the country say the Pitt offense is not so hot. Fine defensive, but not sure, but without a sustaining scoring ability. That criticism probably is based on scoreless ties with Nebraska and Ohio State.

STANFORD'S OPINION

Pitt has a great line, end to end, from the All-American Slickard, any one to Dallas. There are the tackles, Cuba, Meredith, Noel and "Tiger" Walton; guards Oeder, Siegel and Hartwig, and center Irish Joe Torney.

Stanford players admitted that Pitt had the best backfield and Heller was the best halfback they had seen this year. They said Weinstein was the hardest-hitting fullback, and Hogan the best kicker they had faced. Sebastian, who ran 45 yards through Notre Dame's line and secondary for a touchdown, is one of the shiftest backs in the game.

Captain Reider has been on the bench nearly all year with illness, but if he should go into the Bowl game, Pitt might uncork a passing attack, Heller to Reider, that

BABE'S SUPPORTERS CHARGE SUSPENSION GROSSLY UNFAIR

DALLAS, Tex., Dec. 14.—(UP)—Supporters of Mildred ("Babe") Dickinson, Olympic Games star, today prepared to back her in any effort she makes to appeal the ruling of the Southern Amateur Athletic union yesterday that her suspension from amateur competition be continued.

She termed the ruling "grossly unfair" and reiterated her denial that she received "a single penny" for authorized use of her picture in an automobile advertisement. This advertisement was the basis of the suspension.

Homer Mitchell, president of the Employers' Casualty company, where the girl is a filing clerk, said she would have the benefit of counsel in any legal action she chose to take.

Mitchell said he knew of no other evidence that could be introduced and that the request of Lawrence D. Benedetto, Southern A. A. U. representative, for a photostatic copy of a "release" given an advertising agency could not be complied with as there was no release.

Expecting reinstatement in time to play "Babe" accompanied the Golden Cyclone basketball team to Houston for a contest last night but watched the game from the bench. She is forward and captain on the team.

"I'm puzzled by the Southern A. A. U.'s attitude," she said. "It seems to me they are somewhat inconsistent."

"While I have been banned because my name and pictures have appeared in newspapers in connection with an advertised product, a number of basketball teams—even the one my team played last night—play under team names that are in themselves advertisements for companies sponsoring them."

MONTGOMERY OUT OF TITLE GAME? Blaeholder May Join Washington In Trade

JUDGE, GOSLIN ALSO NAMED IN BASEBALL DEAL

NEW YORK, Dec. 14.—(UP)—The annual major league baseball meetings swung into their second day with the rumor market doing a brisk business. The rumor that the boys talked about most involved the St. Louis Browns and the Washington Senators.

Under the proposed deal—which both teams actually admit is a possibility—the Senators would offer Carl Reynolds, center fielder, in exchange for "Goose" Goslin, George Blaeholder, right-handed pitcher, and Walter Stewart, south-paw hurler.

Both Joe Cronin, youthful manager of the Senators, and Bill Killefer, pilot of the Browns, had the matter under consideration early today.

Shortly after midnight Killefer said he and Cronin had just concluded a conference. The Browns' manager told the United Press that "neither side has decided anything definite," but that "we still are thinking of such a trade and will probably have an announcement later in the day."

Other rumors were substantiated by nothing more than smoky lobby air.

George Blaeholder, who moved from the baseball sandlots of Orange county to the St. Louis Browns, has frequently been mentioned as trading timber.

They say the big Garden Grove boy is "in a rut" at St. Louis and that a change of pasture would be the best thing that could happen to his career.

The New York Yankees were once after his services and only a year ago Connie Mack of the Philadelphia Athletics was reported to be dickering for him.

County ball fans will watch closely all major league dispatches in the next few days to see if the Brown-Washington trade is consummated.

SAINT 'CEES' LOSE TO ORANGE, 21 TO 20

Winning from Huntington Beach and losing to Orange has been the record of Coach Clyde Cook's Santa Ana Hi lightweights, who are operating on a free-lance schedule in basketball this season.

Orange noosed out the Santa Ana "Cees," 21 to 20, in a nip-and-tuck battle here yesterday. The Saints visited Huntington Beach Friday, returning with a 27 to 15 victory.

Yerrington, forward, starred in both games, making 12 points against Huntington Beach, 9 against Orange. Buchelester, guard, scored 11 points against the beach team.

The lineups:

Santa Ana (22): (1) Hunt, Beach (3) Dean, Nisley (8) (2) Musall, Tucker (3) (3) (4) Buchelester (11) (5) (6) Horli Wallace (3) (7) (8) Jenkins Substitutions

Santa Ana—Curtis for Nisley, Huntington Beach—Musall (1) for Dean, Barry (2) for Hunt, Hunt for Musall, Patrick for Horli, Horli for Patrick, Patrick for Jenkins.

Orange (21): (1) Yerrington (11) (2) Nisley, Burkett (1) (3) (4) Tucker, Cudworth (3) (5) (6) Buchelester Fall (3) (7) (8) Wallace Substitutions

Orange—Herrington for Burkett, Burkett for Cudworth, Burkett for Fall, Santa Ana—Denio for Yerrington, Birkoff for Denio, McIntyre for Nisley, Hillkase for McIntyre, Kendall for Buchelester, Merse for Wallace.

QUITE A PASSER

Douglas Nott, sophomore halfback on the University of Detroit's eleven this year, threw 37 passes in two games—26 against Michigan State and 11 against Oregon State—and only one was intercepted.

SPORTS

ROAMING CAMERAMAN CATCHES SPORTS PICTURES HERE, THERE, EVERYWHERE

Fresh from his conquest of ferocious rabbits and eagle-like pheasants of New England, Babe Ruth, mighty nimrod, is scaring a lot of deer around New Bern, N. C., where he is doing his hunting out of Camp Bryan. Below he is seen with one of the unlucky animals that failed to elude the shot from his unwavering rifle.

There long has been controversy as to whether a fighter could beat a wrestler and fans in New York's Madison Square Garden almost were given the answer when Ray Steele (right) started tossing hay-pheasants at Champion "Strangler" Lewis (left) in their wrestling match. Steele was disqualified but not until after there was pretty much of a free-for-all with John Evko, a wrestler, getting so excited he just had to jump into the ring for the fun. He is seen climbing through the ropes on his way out, escorted by the referee.

No more hitting the line for "Jarring Jim" Bausch, former star fullback for the University of Kansas, and track decathlon champion of the United States. Jim is very busy hitting the high, or maybe it's the low "C's." He has taken his rich baritone voice and signed a contract as the featured soloist with a Kansas City dance orchestra. Here you see him rehearsing, with Carleton Coon, Jr., tickling the ivories.

Unemployed To Banquet Jaysee Eleven

The city's unemployed will spread a banquet tomorrow night!

Santa Ana junior college's football squad, headed by Coach Bill Cook, will be guests of honor, and the fun-and-eats-will begin at 7 o'clock at the offices of the Santa Ana Unemployed association, Inc., North Main and Tenth streets.

Santa Ana jaysee recently played a benefit night game at the Bowl for the association, raising approximately \$240 for city charities.

AGE OF MIRACLES PASSED? NOT WHEN SAINTS BEAT LONG BEACH IN LEAGUE BASKET GAME, 28-25

For the first time in Coast Preparatory league history, dating back 10 seasons, Santa Ana Hi today sported a basketball victory over Long Beach Poly.

The miracle occurred at Long Beach last night. The score was 28 to 25.

Entering their third league game, the Saints were expected to receive their tenth straight defeat from the Jackrabbits, Coach Bill Cook's Saints captured an early lead, maintained it throughout.

It was anybody's ball game until the final whistle, with the Saints leading 7-4 at the quarter, 13-10 at the half, 21-19 at the end of the third period.

Ernie Acker was the sparkplug of the Saint attack. It was Acker who kept the Cookmen fighting until the final gun. His defensive work was exceptional and his work on offense combined to make him the outstanding player of the evening.

Acker scored 15 points, caging several from past the foul line.

Weston Sprague, although not at his best defensively, played a fine offensive game, scored 10 points and the four winning ones.

The highly rated Dick LeFevre, 6-foot, 8-inch center, starred for Long Beach with 16 points, but his defensive work was considered poor as compared with that of Buckman, Takahashi and Peterson, fleet Jack-rabbit forwards.

With Bill Hawkins starting at center for Santa Ana, LeFevre was able to receive the tip-off consistently.

COMPTON FIVE HERE TONIGHT TO MEET DONS

Over Andrews gymnasium floor tonight Santa Ana junior college's basketball candidates pass in review in two practice games with the undefeated Tartars from Compton junior college. The doubleheader program begins at 7:15.

Coach Bill Foote, with only two regulars in stock, will substitute freely in his efforts to find replacements for Russell Sullivan, Max Stull, Emmett Seacord and Ellwood Lindley, 1931-32 regulars who led Santa Ana to a four-way tie for the first championship of the Orange Empire conference, the title going to Chaffey after an elimination series.

Henry Thier and Jimmy Hall are the two veterans who played regularly last season, and Harold Spangler is another returning candidate who saw considerable action.

Several Don combinations are probable tonight. One would find Thier and Williams at forward, Stewart at center, Welty and Hall at guard. Another would place Stoddard and Spangler at forward, Rittner at center, Lawson and Stoddard at guard. Foote may select five men from these two combinations and place an entirely different team on the floor. He plans to use as many men as possible.

Compton is expected to start MacDowell and Kerner at forward, Smith at center, Cohen and Tryon at guard. This group showed class in defeating Fullerton jay-sees, 50 to 41, last week. Kerner and Smith are Compton's offensive stars.

In the other game the Tartars will use Absher and Yearwood, forwards; Butler, center; Pollard and Mack, guards.

Santa Ana candidates, other than those in the first two combinations, who probably will see action against Compton are Bouldin, Greenow, Melsinger, Davison, Bowden, Asa, Bragg, Clark, Christenson, Muslemian, Moore, Roberts, Smith, McDaniels and Roman. Fred Brooks, promising center, did not report yesterday.

Fox Broadway Screens S. C.-Irish Game

Motion pictures of the entire Southern California Notre Dame football classic, won by the Trojans, 13-0, will be shown at the Fox Broadway theater for four days, beginning tonight.

Manager Les Fountain states that the game is shown in complete detail, both in slow motion and the two S. C. scoring plays are especially plain.

Although the football feature is not officially scheduled to open until Thursday, in conjunction with Constance Bennett's "Rockabye," the Fox Broadway will show the film at its 9 o'clock show tonight.

BEARS SCRATCH BRONCOS FROM 1933 SCHEDULE

SANTA CLARA, Dec. 14.—(UP)—Announcement of the 1933 football schedule of the University of California, which revealed that the Santa Clara Broncos had been omitted, caused little surprise on the Santa Clara college campus today.

Since 1922, the Golden Bears had opened their football season by meeting the Broncos. Usually the Bears won. This fall, however, Coach "Clipper" Smith's eleven trounced California, 12 to 0.

Although Sept. 30 remains an open date on California's schedule, W. W. Monahan, California graduate manager, indicated that the Bears are looking about for an opponent considerably weaker than Santa Clara to fill the date.

The California schedule calls for games with St. Mary's, Olympic club, Washington State, U. S. C., U. C. L. A., Washington, Idaho and Stanford. Monahan said it was hoped to complete negotiations for a game with Notre Dame to be played at Berkeley December 7.

When the Bears meet the Bruins November 4, it will be the first time in history that a state university has put two of its own teams on the field against each other in regular conference competition.

Rissman said the trophy would be given annually but that its presentation would not always hinge on the Tournament of Roses game.

He stated that the New Year's Day game would decide the issue this year because, under the system to be used in arriving at the winner Pitt and Southern California were the two strongest teams this season.

DICKINSON EXPLAINS WHY U. S. C. IGNORED

CHAMPAIGN, Ill., Dec. 14.—(UP)—The Pacific Coast conference's poor record in inter-sectional competition and not Southern California's individual record caused Michigan to get the National title under the Dr. Frank G. Dickinson system of rating, he said today.

"The rating depends largely on sectional supremacy," he said in answer to criticism aroused by his failure to select Southern California. "The Big Ten lost only three inter-sectional games, two of those were by the weak Iowa team."

"The Pacific Coast thus far has won only one inter-sectional game and that was by Southern California. St. Mary's lost to Fordham and Alabama, Oregon State to Fordham and Detroit, and Stanford to Pittsburgh."

In his nine years of ranking football teams, Professor Dickinson has awarded the Pacific Coast three championships and the Big Ten only two, as follows:

1924—Notre Dame.
1925—Dartmouth.
1926—Stanford.
1927—Illinois.
1928—Southern California.
1929—Notre Dame.
1930—Notre Dame.
1931—Southern California.
1932—Michigan.

ANGELS WILL TRAIN AT SAN BERNARDINO

LOS ANGELES, Dec. 14.—(UP)—The Los Angeles baseball club has selected San Bernardino for a spring training site, Secretary "Boots" Weber announced today. A ball park will be constructed immediately, he said.

The Angels will play eight exhibition games there, two each with the Chicago Cubs, Chicago White Sox, Pittsburgh Pirates and New York Giants.

THIRD ARREST IS MADE IN ROBBERY CASE

A third alleged holdup man who is said to have aided in beating William Mayes, Boise barber and robbing him on West First street Sunday night, has been arrested by Deputy Sheriff Merle Dean and G. F. McKelvey.

As a result of the arrest, Phil LaMarr, 26, Anaheim barber, with his two companions, Frank Medina, 22, of Santa Ana, and Leo De Soto, 22, of Anaheim, is facing charges of grand theft and assault with a deadly weapon with intent to commit murder.

LaMarr, according to the arresting officers, has served a prison sentence for grand theft. Medina was just freed from jail last Friday. While LaMarr was arrested at his home in Anaheim, the other two alleged bandits were arrested at the Arizona cafe on West First street shortly after the beating and robbery.

The trio was arraigned before Judge Chris Pann in the Santa Ana justice court yesterday. Preliminary examination was set for December 22 at 9 a. m. and bail of \$2000 each was demanded on the robbery charges, which was not made and the men were returned to the county jail.

Mayes was still confined to his home today as the result of the injuries he received in the holdup. He suffered a fracture of the right jaw, the loss of several teeth and a severe cut back of the right ear. Officers said he had been beaten with a car crank.

Garden Grove Boy Is Struck By Auto

N. Goda, seven-year-old Garden Grove boy, was cut and bruised when a car driven by Charles E. James of First and Buena road, Santa Ana, struck him Monday afternoon, according to a report filed at the California highway patrol office here yesterday.

According to the report, the youth stepped in front of the car from curbing and was struck by the right front wheel of the car, which was crossing the intersection of Ocean and Euclid avenues, Garden Grove, at the time.

ONE MORE DAY IN REGISTER CARRIER RACE

There is great excitement in the circulation department of The Register as the close of the Carrier Popularity Contest draws near. With but one day left and deadline of 8 p. m. Thursday for contestants to get and turn in votes, members of the circulation department, in charge of the big race, anticipate counting an avalanche of votes on Friday.

Leading contestants in both city and suburban divisions are running close at this point in the race. Each is striving to maintain his present position and nose out his nearest competitor, if possible, before the end of the race.

It is expected that announcement of prize winners will not be made until Saturday, due to the large number of votes which will be turned in on the last day.

Prizes will be awarded winners on Saturday as those in charge of the contest feel a complete count of the votes can be made by early Saturday morning.

WESTMINSTER

WESTMINSTER, Dec. 14.—Mrs. Minnie Trout and sisters, the Misses Anna and Della Brooks and their nieces, the Misses Billy and Jackie Brooks, have moved to Bellflower. The family has resided in the place owned by Mrs. Linn Loomis of Long Beach for the past two years. Billy Brooks graduated from the Westminster school last June and has been a student at the Huntington Beach Union High school this term, while Jackie is a member of the eighth grade of Westminster school.

Among the ill in Westminster are Mr. and Mrs. Dwight McDaniel and their son and daughter, Lemuel and Linda.

The Oscar Cochems family of East Seventeenth street, has leased the Deer Lodge, west of Westminster. Frank Whitley, who has occupied the Deer Lodge for several years, has moved to Long Beach.

W. Eggleston, brother of Mrs. Oscar Cochems is coming Sunday to the Cochems' home from the Long Beach Community hospital, where he has been a patient for over six weeks. Mr. Eggleston suffered a compound fracture of one leg when struck by an automobile in Anaheim. As his other leg was already injured, the patient will be confined to his bed for probably six weeks more.

The Rev. and Mrs. C. G. Carter and young daughter, Barbara, have left for a visit with relatives in San Francisco and vicinity. The Rev. Mr. Carter will occupy the pulpit for a former college friend on Sunday.

Mrs. James Monroe has been spending a week at Bellflower with her daughter, Mrs. Raymond Benner, who is ill.

Postmaster Clyde Day was ill at his home with an attack of influenza for several days and his son, Herbert, also was ill with influenza.

Mrs. E. S. Hell, Mr. and Mrs. John Baker, mother, and brother-in-law and sister of M. J. P. Hell, were entertained as Sunday dinner guests in the Hell home. In the afternoon other relatives, including Mr. and Mrs. Vernon Hell and sons and Mr. and Mrs. David Solselaw and son, of Smelter and Mr. and Mrs. Armand Hell and family, of Midway City, joined the party.

Mrs. Lloyd Edward and children, of Villa Park, visited Sunday in the home of her brother-in-law and sister, Mr. and Mrs. Charles Walton.

Mr. and Mrs. A. B. Crane motored to Hemet to spend a day as guests of the Rev. and Mrs. R. A. Weld, former local people.

The Rev. and Mrs. C. G. Carter, who have been spending a few days at Roseville, where they motored last week that the Rev. Mr. Carter might fill the pulpit of a former college friend who has preached for him here, arrived home Tuesday.

FEATURE FOR KREG PROGRAM

One solid hour of dance music is promised radio listeners over KREG for tonight. The fact that the program is being presented by Aaron Gonzalez and his Novelty Quintet adds zest to the announcement for those radio fans who have heard this popular organization.

The program will be well-balanced with solo and specialty numbers, arranged by Gonzalez whose wide experience and years of training have made him particularly well qualified. Gonzalez said today that he will be pleased to grant request numbers on his Wednesday programs if they reach him in time to be included when he prepares the programs for presentation. This is necessary, he said, as an entire program is arranged for each period making it impossible to grant telephone requests.

Gonzalez who is well known to radio audiences, having played over KREG and many leading Southern California stations for more than a year, added another triumph to his list recently when he organized the Novelty Quintet. This organization made up of outstanding musicians of the county scored an instant hit with their first radio appearance several weeks ago.

KREG NOTES

Tonight Santa Claus will talk to boys and girls of Santa Ana about bicycles and skates. In addition to Santa's talk Miss Migonnette Goddard will sing a group of songs and tell the story of "The Golden Cobwebs." This program is sponsored by Montgomery Ward company.

Bing Crosby will be the big shot tonight on the program sponsored by Dr. E. H. Riesen, Santa Ana dentist. An all Crosby program was granted in response to many requests from listeners.

RADIO FEATURES

Time References Are Pacific Standard Time

Representative Wright Patman, Democratic congressman from Texas, will be heard over a National Broadcasting company network including KREG, in a discussion of "Adjusted Service Certificates" at 5:30 o'clock this evening. As a member of the house committee on war claims and world war veterans' legislation, Patman is considered an authority on that subject. He also served as a machine gunner in France and is considered a friend of the soldiers.

"Teamwork" will be the subject of Angelo Patri's talk to parents on "Your Child," to be broadcast over the Columbia network including KJH at 8:15 o'clock tonight. The noted educator will demonstrate at this time how necessary it is for both father and mother to cooperate in bringing up children, showing the harmful effects of divided authority and parents who work at cross purposes in raising their children.

The Three Keys, unusual Negro harmony trio, heard for the first time in the west last week, will be broadcast over a coast-to-coast NBC network including KFSB, regularly every Wednesday from 8:15 to 8:30 p. m., beginning tonight. Members of the group, who discovered about a year ago in a "black and tan" cafe in Chester, Pa., are Bob Bon, tenor; Bob, pianist and tenor, and Slim, baritone and guitarist. Their mode of instrumentation is said to be new and without a name, since it is used only by these three Negro youths who developed it.

Dedication ceremonies, including an address by President Hoover at the laying of the cornerstone of the new department of labor building in Washington, D. C., will be broadcast Thursday, December 15, from 11:30 a. m. to 12:30 p. m. over the Columbia network. The exercises will open with music by the United States Marine band, to be followed by an invocation by Dr. John J. Burke and introductory remarks by Secretary of Labor Dock. The president then will speak. Brief addresses also will be made by William Green, speaking in behalf of the American Federation of Labor, and James J. Stewart, speaking for employers in general. A special Masonic cornerstone ritual will follow, concluding with the national anthem and the benediction by Dr. Abraham Simon. KJH is expected to release this broadcast.

FOUR DIRECTORS ARE ELECTED AT 20-30 CLUB MEET

Four members of the Santa Ana Twenty-Three club were elected to the board of directors at the regular meeting of the club which was held last night in Ketter's cafe. They are George Bradley, Francis Horton, William Nichols and Dick Ewert.

Nelson Visel, as speaker of the evening, made an appeal for support of the Orange County Health camp in Santiago canyon, urging members to buy Christmas seals which are used to fight tuberculosis.

Dick Nelson entertained members and guests of the club with card tricks and exhibitions of magic.

Several guests were present at the meeting, including Richard Williamson, Los Angeles attorney and Claude Black, local manager of the Willys Knight sales company.

Entering into the Christmas spirit, each member of the club last night brought a present for another member, which were distributed during the meeting.

Attention was called to the joint quarterly meeting of all clubs in the county which is to be held next Wednesday night at McFarland's cafe in Fullerton. Santa Ana members will meet at Ketter's cafe at 6:15 p. m. and go to Fullerton in a body.

Coast Christmas Light Display Begins Tomorrow

HOLIDAY EVENT INCLUDES ART DISPLAY, MUSIC

Forging ahead toward the culmination of a project, never before attempted in the state of California, in which Christmas with all of its spirit of festivity and reverence will be depicted, and urged on by the slogan, "Christmas Smiles for Forty Miles," cities of the Orange county coastline, including Seal Beach, Sunset Beach, Huntington Beach, Newport Beach, Laguna Beach, and San Clemente, working together toward the same goal, will this season present to the public one of the most colorful and gorgeous displays in the way of lighted Christmas trees, decorated buildings, shrines picturing Biblical scenes, and other special community displays, that has ever been attempted before.

The opening of the display is definitely set for 7 p.m. tomorrow, and everything will be in readiness, according to a statement made today by Dr. C. G. Huston of Costa Mesa, chairman of the planning committee of the sponsoring institution, the Orange County Coast Association.

Christmas Music
Coincident with the time that the lights blaze forth all up and down the 40 mile stretch, Christmas music will burst forth from radio receiving sets stationed at various vantage points along the line, tuned in to radio stations that will co-operate to present the musical program; and the serving of coffee, doughnuts, and sandwiches will begin at the various shrines, every wayfarer being welcome to partake of the warm food.

The radio programs will come on the air daily from 4 to 4:30 p.m., 8:15 to 8:30 p.m., and 9:15 to 10 p.m.; and on Sunday from 6 to 7 p.m.; Christmas themes being played by stringed ensembles and pipe organ.

Seal Beach has planned a border of evergreen trees to be dressed in Yuletide regalia, colored lights being the predominating feature; and a shrine is being built at Sunset Beach. LIFE STORY OF FRANKLIN D. ROOSEVELT

By Leland M. Ross and Allan W. Grobin

(This intimate story of the life of Franklin Delano Roosevelt, beginning with the time his father took him as a 5-year-old to call on his close friend, Grover Cleveland, then President of the United States, carries the reader through an interesting boyhood on the family farm at Hyde Park, N. Y., his student days at Groton, Harvard and Columbia Law School, and the development of his political career, which began with a New York State Senate race. This biography is entirely authentic. Recent instalments told of F. D.'s courageous fight against the after-effects of infantile paralysis, and of the work of the Warm Springs Foundation, which he established in Georgia after deriving great benefits from the baths there. In 1928 he worked for the nomination and election as President of Alfred E. Smith, and although the national ticket was beaten, he was elected governor of New York, running far ahead of the national ticket. Roosevelt found time, while fighting a hostile Republican legislature, to devise means to aid the farmers of the state.)

INSTALMENT 26
But if the state was to remain active in helping the agriculturist to pull himself from bankruptcy and ruin, it was necessary that the local communities themselves should do their share. The first step was to cut costs of town and county governments. In almost every case there was expensive overlapping, antiquated methods, extravagant and unnecessary offices which desired for political patronage had kept extant. The counties and towns should emulate the state government, declared the governor, which had been busily putting its affairs on a business basis for more than a decade. Millions could be saved every year.

"I am utterly at a loss to understand," said Roosevelt, "why we in New York State remain wedded to the system of local government devised 250 years ago by His Royal Highness, the Duke of York. . . . It has been estimated that the consolidation of tax collection under a county office would alone save our taxpayers more than \$500,000 annually."

The ultimate goal, he explained, was to arrive socially and economically at a day when the average farmer of the state would be assured of as high a living standard as the skilled mechanic or the small business man of the city. Surely, he asserted, the landsman had a right to expect that much.

No New York governor had ever gone as far in an endeavor to solve the farmer's puzzle. The complete candor and fairness of his attitude was appreciated throughout the state. . . . and the nation.

In December of 1929 he was invited to address the national convention of the American Farm Bureau. He accepted.

The most important questions before the nation, he told them, were the control of public utilities and farm relief. On both issues the Republican chiefs were wrong.

ROCK PILE PLAN CONSIDERED BY SUPERVISORS FOR YULE PARTY

Prisoners in the county jail sentenced to terms of hard labor and transients who linger too long in the county may be given an opportunity to do their daily dozen on a county rock pile if the suggestion of Supervisor Willard Smith is carried out.

During the afternoon session of the board yesterday, Smith asked members to consider the possibility of instituting a rock pile on property south of the county yard, here. He said that there is no more constructive work to be done by prisoners at Irvine park for some time.

Because of the lack of work, Smith said, Sheriff Logan Jackson is in a quandary. He has a large number of prisoners sentenced by the courts to serve their terms at hard labor and the money for their labor is ordered turned over to dependents of the prisoners. Failure to keep the prisoners at work makes Jackson liable for citation for contempt of court.

The only work that could be provided for the next few months he said, would require employment of additional guards as the jobs would be such as to require services of but two or three men. A rock pile, he pointed out, could be maintained in a strong enclosure where the regular guards could maintain watch over the men.

While all members of the board expressed themselves as favoring the plan, no action was taken on the matter, the board, as a whole, preferring to delay action until the matter has been taken up with the three superior court judges and the district attorney's office.

CITRUS TREES' RESISTANCE TO FROST IS CITED

In the colder citrus areas of Southern California the following facts concerning susceptibility of citrus trees to frost will be of particular interest to growers, according to Harold E. Wahlberg, farm advisor of Orange county.

"Extra dry trees may be more affected by frost than trees well supplied with moisture," Wahlberg said. "If the tree's growth is checked by lack of soil moisture and this is followed by early fall rains, late growth may be forced out. This late growth is very susceptible to frost."

"It is well to remember that use of nitrogen late in the season where nitrogen has been deficient, together with plenty of moisture, tends to prolong growth."

"Late pruning and late treatment of scaly bark are not the best practices if one would avoid frost damage in the colder areas. Fruit on actively growing trees is usually damaged more than if the tree is not growing so actively during the winter months. Young trees which are nearly dormant are less affected by frost than those in more active growth."

"The stage of maturity affects the extent of frost damage. As fruit reaches maturity it becomes more resistant."

"The order of frost resistance is as follows: Grapefruit, hardiest, then the Valencia, Navel, Thompson Navel, Tangerine and Satsuma and Liebon and Eureka. water had settled on it the night previous from a heavy rain and this had frozen heavy enough for skating," Elijah declares. The iceicles remained on the fountain all day and oranges in the vicinity were frozen solid and dropped to the ground, he recalled.

Elijah states that a number of pictures of the fountain were taken at the time and that these will substantiate his statements.

Youngster Celebrates Fifth Anniversary With Yule Party

Falling within the Christmas period, the fifth birthday anniversary of little Miss Noreen Riley Smith, daughter of Mr. and Mrs. Ridley C. Smith of 203 North Ross street, proved an occasion for celebration yesterday. A double festivity which was a combined birthday and Christmas party was held in the Smith home, where gathered a score of playmates at the invitation of their young hostess.

The small guests gathered early about a glittering Christmas tree pleasantly burdened with gifts brought for the honoree and with other presents placed on the tree for the guests to themselves.

A succession of games provided entertainment until the small people were invited to find places at a table where reposed a pretty birthday cake with Christmas trimmings, and a tray assortment of Yale decorations ranging from Santa Claus and reindeer to red candles in silver holders. Individual cakes and ice cream cakes, served with the birthday cake, while small stockings filled with candies were given the youngsters.

Attending the party were Mrs. C. J. Mock, Betty Gantman, Benny Gantman, Shirley Jean Switzer, Marjorie Raitt, Ross Mather, Billy and Robbie Stauffer, Patricia Swanner, Jean Louise Robinson, Constance Elliott, Carolyn Spicer, Harold Segerstrom, Mary Kathryn and Donna Lucille Olewiler, Mary Ann Ridley Smith and the small honoree and hostess, Noreen Ridley Smith.

Club Section Devotes Meeting to Charity

Philanthropic section members of Santa Ana Women's club exemplified their section name yesterday afternoon at the meeting with their leader, Mrs. William H. Kuhn, 602 Stafford street. For as soon as they were assembled in the home, they started on their afternoon of sewing and comfort knitting.

Mrs. George E. Wright cut out blocks, Mrs. A. J. Knight presided at the sewing machine, and the others, Mrs. Kuhn, the hostess, Mesdames M. C. Williams, William Wells, Meyers, Ryan, William Whitehead, A. C. Green, J. C. Limbird and C. C. Oakes, stitched busily away.

After some of the work was completed the clubwomen went in a group to one needy home of which their leader knew, taking warm bedding, children's garments and a generous assortment of groceries. The work will be continued, and this kindly group plans some especially generous aid to the needy at Christmas time.

Returning to the Kuhn home, section members were agreeably surprised by their hostess, who served a refreshing tea menu before the interesting afternoon came to a close.

One of the pleasantest affairs in the history of Damascus White Shrine, was the party at which members honored past and present supreme officers and their own officers elect, when they met late last week in Masonic temple.

ORANGE, Dec. 14.—The only

meeting to be held in December by members of the Business and Professional Women's club was that of Monday night, when the annual Christmas party was held. Group singing formed an important part of the program and the songs included those awarded prizes in a recent club song contest. Mrs. Christine Lambert, music chairman of the club, directed the singing and "Farewell" was sung in her honor by club members as she is leaving this month for Ohio in company with her mother, Mrs. Charles E. Eck, who has spent the past month here.

The clubhouse lobby was gay with sprays of scarlet-berried cotoneaster and the long table was softly lighted with red candles set in silver candleabra. The dancing flames in the fireplace lighted the room and furthered at atmosphere of cozy security against the storm beating at the windows and doors.

Miss Adelaide Proctor presided at the business meeting and it was voted to present the Orange Community Welfare board with \$10 for welfare work. Mrs. Alice Cole read the revised by-laws of the club which are being proposed for adoption in order to bring the club rulings into harmony with the national organization.

Mrs. Josephine Shell brought a new rally song to club members which was sung to the melody of "Jubilo." Miss Luella Cutright acted as secretary in the absence of Miss Florence Moreland. Reports of interest regarding club affairs were given by Miss Matie Dannemann, Mrs. Mabel Coburn, Mrs. Iva Lee and Miss Proctor.

Miss Thelma Dugan read "Why the Chimes Rang" and "Rastus at the Wedding."

ORANGE, Dec. 14.—A turkey

dinner was served at the Christmas party shared by members of the Second Economics section of the Orange Woman's club Tuesday when they met in the lobby of the clubhouse. At each place was a chubby Santa Claus cunningly fashioned from a red apple, marshmallows and raisins. Small red candles set in red apples for holders were used to light the table.

Mrs. J. T. McInnes presided at a brief business session and it was decided to give \$5 to the Welfare board. Mrs. McInnes and Mrs. N. T. Edwards distributed the gifts, which were heaped at the base of the beautifully decorated tree. Mrs. George Bartley assisted Mrs. C. C. Bonebrake in decorating the tree and tables.

Guests of the section were Mrs. Earl Crawford, club president, and Mrs. Fred Alden, curator. Hostesses were Mrs. Homer Larkin, Mrs. C. C. Bonebrake, Mrs. Ray Howell and Mrs. N. T. Edwards. Cards followed the dinner. The next meeting of the section will be held January 9, with Mrs. W. B. Dennis, Mrs. Henry Terry and Mrs. Bert Coburn as hostesses.

Mothers and Children Take Part in Gay Luncheon

A delightful luncheon given recently by Mrs. Fern S. Bishop in her home, 403 East Santa Clara avenue, was in celebration of the third birthday anniversary of her young son, Billie.

Guests were seated at a large table centered with a mound of red and green Christmas balls, and attractively wrapped gifts for all added to the holiday effect. Suspended from the chandelier were brightly-hued balloons. The last course of the inviting repast included individual birthday cakes each adorned with three tiny candles.

Those present included Mrs. C. Kretzinger and son, Ronald; Mrs. Philip La Londe and daughter, Geraldine; Mrs. Paul Nielsen, all of Santa Ana; Mrs. E. V. Kelsey and son, Billie; Bob, Gordon, and Mrs. R. T. Lyon and daughter, Margie; Mrs. Mary Parker, Anaheim; Mrs. Ernest McCracken and daughter, Joyce; Mrs. Harold Nielsen and sons, Bobbie and Tommie, Fullerton, and the hostess, Mrs. Bishop and son, Billie.

Junior Collegians Plan Yuletide Festivity

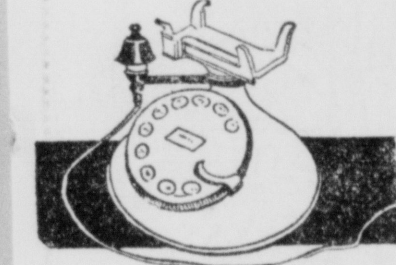

Liveliest anticipations prevail on the Junior college campus, for the annual semi-formal Christmas dance being planned for Saturday night at 9 o'clock in Santa Ana Country club. It promises to be a gala event in every particular, and all Jaycee students and alumni are invited to share the varied pleasures of the evening. Admission will be by staple groceries in some form suitable for distribution among the needy at Christmas.

Decorations in silver and green are to be in charge of Las Meninas and Brotherhood of Rache-lers who also are planning entertaining favors. Several novelty numbers are being planned by Sisterhood of Spinners, in charge of entertainment. Buccaneers and Junior Lions are in charge of the punch and check room and Miss Helen Bower, social commissioner, is general chairman for the dance. Bill Hagers' nine-piece orchestra from Fullerton has been secured.

SANTA SUGGESTS

A TINY 'PHONE LIGHT

If you can't think of a thing to give Dad that he doesn't have already, or if you want to give

Mother some nice thing for the house, why not make it one of the new diminutive electric lights for the phone. You know yourself how hard it is to dial in the dark. This attaches right to the phone and almost makes dialing a pleasure. It also is an excellent help for hunting phone numbers.

The MIXING BOWL by ANN MEREDITH

We used to think that "Spring Fever" was the natural thing to look forward to, just something we had to worry about like bills on the first of the month. Now, we know that neither bills nor Spring Fever can worry us if our credit is sound, and we observe the rule of "buy as you go."

Spring fever is really vitamin starvation. In summer and fall months we go along beautifully because we are getting an overdose of vitamin foods. When winter comes fresh fruits and vegetables are just existing and the effort to prepare winter vitamin foods being a trifle bothersome, we just open a can of this or that and let the vitamins go until a more convenient time.

We do not get sufficient of the easiest of all vitamins to get, Vitamin D, because we are too lazy to walk and let the sun take a square look at us. Is it any wonder that we feel low?

Walk every day for the sake of good looks. See that milk has a place in your daily diet, and that CITRUS fruit either starts or finishes your day. Just for luck begin a few mornings with a big glass of cold tomato juice and when those spring days get here you'll be ready to jump over the moon you'll feel so fit.

TODAY'S RECIPE

Nut Rolls
1 cup scalded milk
2 tablespoonsful butter
1 tablespoonful sugar
1 teaspoonful salt
1 yeast cake
2 tablespoonsful tepid water
2 cups flour
3 tablespoonsful brown sugar
1/2 cup crushed walnut meat
Indefinite amount of flour to knead dough

Combine butter, sugar and salt with the hot milk, stir until dissolved. Let milk stand until tepid when the dissolved yeast cake is mixed with it and with 2 cups of flour. This makes the sponge and you do this with it:

Beat well after ingredients are in, cover and let rise until light. When well risen cut down with knife, add enough flour to knead the sponge.

Let rise a second time, cut down, knead, roll out to 1-4 inch thick. Spread the sheet of dough with butter, half of the nut meats and all of the sugar. Roll up, cut in slices, crowd them into a buttered pan, brush tops with butter, let rise again and bake in a hot oven. When rolls are baked brush top with a milk frosting (powdered sugar mixed to a paste) sprinkle with remaining nut meats and return to oven to glaze.

Feather Puffs

Save a small amount of dough, roll to 1/2 inch thickness, cut in inch squares and leave until very light. Drop the squares in hot fat and fry to a golden brown. They are grand food to serve with a salad.

It may be gilding the lily, but it seems to me that a little grated cheese sprinkled over each feather

Bridge Dinner Hostess Plans Table Details On Yule Theme

Inviting Fulla Fun club members to be their guests at dinner and bridge, Mr. and Mrs. Earl R. Lepper designated the gold room at Ketter's as the scene of the hospitality rather than their own home on Maple street.

Club members found a cheerful spot awaiting them when they gathered Saturday night in response to the invitation, for Mrs. Lepper had employed the Christmas colors very effectively in table decorations. A tree with bright ornaments and tinsel, centered the table, while other details included a group of cozy cottages with Santa Claus arriving in his sleigh in readiness for his annual call. Quantities of holly gay red and green place cards and Christmas wrapped bridge prizes were other harmonious details of the evening.

Leonard White made high bridge score among the men, while Mrs. White excelled among the women players. Mrs. Wilbur Gill and Leonard Ewbank held second and third scores, and to each of the four was presented an appropriate gift.

Mr. and Mrs. Lepper greeted as their guests, Messrs. and Mesdames Louis Bittle, Harry Brown, Will Pranke, Leland Ewbank, Frank King, Ernest Ashland, Phil Lalonde, Leonard White, Gilbert Brown, Virgil Shidler, Mrs. Wilbur Gill and her sister, Mrs. Lois Marshall.

Parent-Teachers

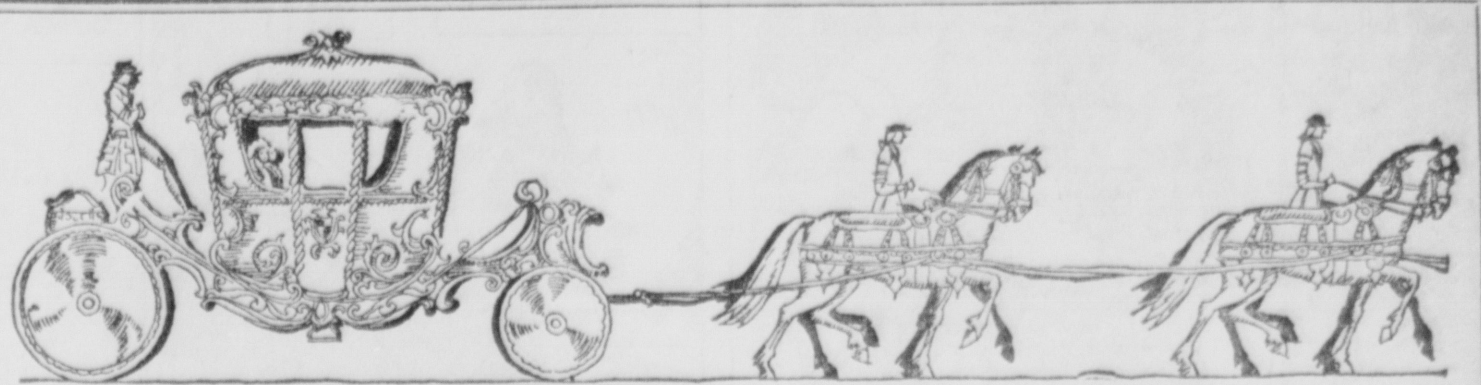

Fathers' night was observed by members and friends of Lowell P.-T.A. this week when a Christmas program was given in the school. The Rev. George Warner, pastor of the First Methodist

church, talked on "Spiritual Safeguards," naming as some of these safeguards, good thought, good habits, enlarged sympathies and an understandable and noble conception of God.

Kindergarten students entertained with hand selections, songs and readings. Members of A-1 and B-2 classes gave folk dances, after

which B-3 pupils gave a group of songs, "We Thank Thee for Music," "Jingle Bells," "Luther's Cradle Song." Members of B-5 sang "Deck the Halls" and "Christmas Bells." The sixth grade chorus sang, "Silent Night" and "O, Little Town of Bethlehem."

Mrs. DeWitt Dudley played violin solos, "Souvenir" and "Deep River," accompanied at the piano by Mrs. T. R. Woods. The evening closed with a social hour, at which time coffee and sandwiches were served by a committee composed of Mesdames B. Mustard, R. A. McPhee, J. A. LaLonde and O. C. Hillhouse.
